

Franklin Templeton® Funds

Franklin Templeton® is an investment management company with a diversified and global perspective that comes from over 50 years of worldwide operations and time-proven investment principles. Franklin Templeton® is one of the largest and most widely known global fund houses.

How Franklin Templeton® Investments Funds Work

A mutual fund is an investment that enables you to pool your money along with other investors from all over the world who have similar investment objectives. Franklin Templeton® fund managers invest the pool of money in a wide range of financial assets. These assets include equities, bonds and cash, issued in all the major, and many minor, markets across the globe.

Why Invest In Franklin Templeton® Investments Funds

A Widely Diversified Range of Products

Franklin Templeton® Investment Funds offer a convenient way to invest worldwide. With over 45 different professionally managed funds, Franklin Templeton® provides investment opportunities covering a full range of investment objectives from stability of principle to aggressive growth.

Flexibility in Asset Allocation

Working with a Dry Associates Investment Analyst, you can structure an investment portfolio as unique as your own financial situation—meeting your individual return objectives, risk tolerance and income needs.

Free Switching

If your investment objectives change, you can easily change your asset allocation by moving into any off the 45 funds at no charge—avoiding costly fees incurred at other fund houses and brokerages. Free switching can only be done among like share class.

Negligible Taxation

Luxembourg, where the funds are registered, does not require reporting or withholding taxes for individual shareholders. Funds repatriated back to Kenya are considered capital gains not income.

Affordable Minimum Investment

For as little as US\$ 5,000, or the equivalent in Euros or Pounds, you can diversify your investment across many nations, industries and companies.

Professional Management

Most importantly, Franklin Templeton® is recognized for having a diverse, quality group of investment managers, benefiting from a global network of research analysts and more than 50 years of global investment expertise.

How to Decide Among the Wide Range of Products?

By analyzing your investment aims, time horizon and risk tolerance, a Dry Associates Investment Analyst can assist you in selecting the funds that best suit your investment profile.
